1. General Information and Going Concern

Candente Copper Corp. and its subsidiaries (the "Company") are engaged in the exploration of its mining properties located in Peru. Its principal property is the Cañariaco Copper Project in the District of Lambayeque. The Company was incorporated on May 1, 1997 under the Business Corporation Act of British Columbia and its principal office is located at Suite 801-1112 West Pender Street, Vancouver British Columbia, V6E 2S1.

The principal subsidiaries of the Company as at September 30, 2021 are as follows:

Subsidiary	Interest	Functional currency
Canariaco Copper Peru S.A. ("Canariaco")	100%	US Dollars
Canariaco Copper (BVI) Corp.	100%	US Dollars
Inversiones Mineras Las Palmas S.A.	100%	US Dollars
Cobriza Metals Corp.	100%	CDN Dollars
Candente Resource (BVI) Corp.	100%	US Dollars
Cobriza Metals Peru S.A.	100%	US Dollars

The Company's common shares are listed on the Toronto Stock Exchange ("TSX") and the Lima Stock Exchange under the trading symbol "DNT". The Company's share options and warrants are not listed.

These condensed consolidated interim financial statements were authorized for issue by the Board of Directors on November 11, 2021.

These condensed consolidated interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assume that the Company will continue operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations as they come due. For the nine months ended September 30, 2021, the Company incurred a net loss of \$621,379. As at September 30, 2021, the Company has \$36,595,550 in cumulative losses since inception and working capital of \$305,846. The Company does not generate cash flows from operations and accordingly, the Company will need to raise additional funds through the issuance of securities, resource secured debt or joint venture projects. Although, the Company has been successful in raising funds in the past there can be no assurance that the Company will be able to raise sufficient funds in the future, in which case the Company may be unable to meet its obligations as they come due in the normal course of business. The Company is subject to sovereign risk, including political and economic instability, changes in existing government regulations relating to mining, as well as currency fluctuations and local inflation. These factors are material uncertainties that may cast significant doubt regarding the Company's ability to continue as a going concern. Should the Company be unable to realize its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts on the statement of financial position.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies and financial markets globally, potentially leading to an economic downturn. Operation in the projects located in Peru make decisions according to their local situation and applicable laws, as well as considering the health and safety of their employees. During the second quarter of 2020, operations in Peru were temporarily suspended due to government restrictions focused on reducing the impacts of COVID-19, including the Don Gregorio copper-gold porphyry proyect. The Peruvian government issued a decree on May 3, 2020 indicating large mines would be able to reopen subject to approval of certain protocols. The mining exploration activities resumed operations during the third quarter of 2020 and remain in operations. To date, it is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effect on the Company's business or ability to raise funds.

2. Statement of Compliance and Basis of Presentation

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting.

These condensed consolidated interim financial statements have been prepared on a historical cost basis, except for certain financial instruments, which are measured at fair value.

These condensed consolidated interim financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2020, which have been prepared in accordance with IFRS issued by the IASB.

3. Investment

At September 30, 2021, the Company held 5,536,373 (December 31, 2020 - 5,536,373) shares of Xali Gold Corp. (formerly Candente Gold Corp) ("Xali Gold"), a company with common officers and directors. The closing share price was CDN\$0.065 (December 31, 2020 - CDN\$0.055) and the fair value of the Company's investment in Xali Gold is \$282,457 (December 31, 2020 - \$239,155). During the nine months ended September 30, 2021, the Company recognized an unrealized gain on investments of \$45,373 (2020 – \$50,934) that was included in other comprehensive loss.

5. Unproven Mineral Right Interests (Continued)

The Company has a 100% interest in the Don Gregorio copper-gold porphyry project, located in Jaen Province, Peru. On June 26, 2017, the Company entered into an option agreement to option this property with Forte Copper Corp. (formerly known as Plan B Minerals Corp.) ("FCC"). The Don Gregorio property is one of the projects held by Cobriza Metals Peru S.A. ("Cobriza").

In accordance with the option agreement, FCC has the right to earn a 60% interest in the Don Gregorio property from the Company by making staged payments totaling \$500,000 to the Company, making a payment of \$8,500 (paid) and drilling 10,000 metres within 3 years of receiving drilling permits.

To date, the Company has received \$108,100 and reimbursements for fees for annual mineral rights totalling \$72,296 with respect to this agreement. One-half of the aforementioned payments are to be used to fund the Company's work in community engagement and agreements. The Company is to receive \$100,000 on or before 30 days of receipt of drill permits for the first phase drill program, \$100,000 within 30 days of completing the first phase drill program (5,000 metres) and the final \$200,000 within 60 days of completing the second phase drill program (an additional 5,000 metres).

On November 4, 2020, the Company assigned the Don Gregorio project mining concessions to a subsidiary of FCC for ease of application for the drilling permits. The agreement has a term of 5 years.

Acquisition of Canyon Creek copper project:

On May 26, 2021 the Company announced it has entered into an option agreement to acquire up to 100% interest in the Canyon Creek copper project in northwestern British Columbia ("B.C."), Canada

Terms of the Agreement

The Company has entered into a legally binding Letter of Intent ("LOI") with property owner Chris Baldys. The LOI provides for the following:

Acquire 100% Interest (subject to Royalty*) by:

- 1. Issuing a total of 1M shares over 5 years (by November 30, 2025)
- 2. Funding exploration activities to keep the claims in good standing until December 2027 (approximately Cdn\$45,000 per year)

Of the above the following is a Firm Commitment:

- Issue 50,000 shares within 14 days of signing and receiving TSX approval; (issued) (note 9)
- Issue an additional 50,000 shares by November 30, 2021
- Funding exploration activities totalling a minimum of \$42,000 by December 31, 2021

*Royalty:

The Vendor will be granted a royalty equal to 1.5% of net smelter returns. The Company has the right to buyback the first 0.5% for \$500,000 and the second 0.5% for an additional \$1.5M.

13. Segmented Information

The Company operates in one segment being the exploration of mineral properties in Peru. The Company operates in two geographical areas, being Peru and Canada. All of the Company's non-current assets are located in Peru.

14. Financial Risk and Capital Management

The Company is exposed to certain financial risks in the normal course of its operations:

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations associated with its financial liabilities. The liquidity position of the Company is managed to ensure sufficient liquid funds are available to meet financial commitments in a timely and cost-efficient manner. The Company's management continually reviews the liquidity position including cash flow forecasts to determine the forecasted liquidity position and maintain appropriate liquidity levels. The Company plans to make payments of trade payables, which are either past due or due within the next 12 months and commitments from its current working capital and future sources of equity financing. Liquidity risk is considered to be high.

Currency risk

Currency risk is the risk that arises on financial instruments that are denominated in a foreign currency, i.e. in a currency other than the functional currency in which they are measured. The Company operates internationally and is exposed to risks from foreign currency rates. The functional currencies of the Company's subsidiaries are the United States and Canadian dollars and certain of the subsidiaries' transactions are denominated in Nuevo Soles. The Company does not enter into any foreign exchange contracts to mitigate this risk. The Company and its subsidiaries do not have significant transactions or hold significant cash denominated currencies other than their functional currencies. Therefore, the risk is considered moderate.

Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss for the Company by failing to discharge its obligations. Cash is deposited in highly rated corporations and the credit risk associated with these deposits is low. At September 30, 2021, the Company's maximum exposure to credit risk is the carrying value of its cash and receivables.

Capital management

The Company's capital structure is comprised of the components of equity. The Company's objectives when managing its capital structure is to, maintain financial flexibility to preserve the Company's access to capital markets and its ability to meet its financial obligations.

The Company's corporate office is responsible for capital management. This involves the use of corporate forecasting models, which facilitate analysis of the Company's financial position including cash flow forecasts to determine future capital management requirements.

In preparing its budgets and corporate forecasting models, the Company considers operating commitments imposed by its subsidiaries and the stability of the global capital markets.

Capital management is undertaken to safeguard a secure, cost-effective supply of funds to ensure the Company's operating and capital expenditure requirements are met. There were no changes in the Company's approach to capital management during the year and the Company is not subject to any restrictions on its capital.

14. Financial Risk and Capital Management (continued)

Fair value hierarchy

The condensed consolidated interim statements of financial position carrying amounts for receivables and trade payables, approximate fair value due to their short-term nature. The receivable for sale of subsidiary is measured at amortized cost using the effective interest method and approximates fair value.

The following provides a description of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Cash and investments fall under Level 1.

There were no transfers between levels during the period.
